Thanks Brandon;

Brandon:

Could I get a copy of the document and notice? Then I can pass it along the the state representative (she's separate from DEC).

Thanks, Scott

Hi Scott

The PPRTV document for sulfolane was released about two weeks ago. I sent notice to DEC that it was available so they should have it.

Brandon:

Do you know who at EPA or group in EPA deals with Provisional Toxicity Value of Sulfolane in water? Rep. Wilson in the Fairbanks Alaska asked me this question. See forwarded message.

Take care, Scott

Dear Scott,

I again want to thank you for taking time to see our community. The legislature is currently in session in Juneau and we are pushing forward legislation that will help our community better deal with our air quality issues. I have attached a document of those that have taken advantage of our Interior Weatherization Program. This is a program that is free to those that qualify based on income. It shows by zip code the savings in BTUs and an average of gallons of oil saved per household. Please let me know if this is something that can be used in our modeling.

Second, I was hoping you could help me find out who in the EPA deals with Provisional Toxicity Value of Sulfolane. I thought it was Robert Kavlock but he did not respond to my email so I am assuming I have the wrong person. North Pole is dealing with sulfolane in our water and I am hoping to find out how long it will take to have a value assigned. This is necessary for the state to set a cleanup level. I appreciate any help you can give.

Thank you.

Tammie

Representative Tammie Wilson

State House District #11

North Pole, AK

(907) 451-2851
